NEWLY INCREASED OREGON PRODUCTION INCENTIVES

During the most recent legislative session, Oregon increased the OREGON PRODUCTION INVESTMENT FUND (OPIF) rebate percentages to:

20% for in-state labor and 25% for goods and services from Oregon vendors.

Once this is combined with the GREENLIGHT OREGON LABOR REBATE program for projects over $1M, our cash rebates for in-state spending would be:

26.2% for payrolled labor (resident & non-resident, up to $1M/person or entity) and 25% for purchases or rentals from Oregon registered vendors.

This is a DOUBLING of the rebate rates for labor and a 25% increase for the vendor rebate.

These new rates will go into effect on JULY 1, 2022, but we will be able to offer the new rates to any project in production here for their in-state spending that occurs on or after July 1 (our current rates would apply to spending prior to that date).

In addition, during the 2021 legislative session Oregon increased its annual OPIF incentive allocation to $20M per year - a 40% increase. These are CASH REBATES, not transferable credits. And, as always, Oregon has NO SALES TAX.

Oregon has a long history of supporting and celebrating creative content production reaching back to cinema classics like THE GOONIES and STAND BY ME, and films that changed the animation industry like CORALINE and KUBO AND THE TWO STRINGS, to more recent projects like SHRILL, GRIMM, PORTLANDIA, LEAVE NO TRACE, and PIG.

Local crews, equipment, talent and supporting vendors are easy to find and highly experienced. And there are additional funds available to help projects that choose to shoot outside of the Portland studio Zone.

INCENTIVE FUNDS ARE CURRENTLY AVAILABLE so please let us know how we can help.
