Short-term office rentals

with the comforts of home

You've got production coming up and you need an office space to meet regularly. There's no sense in signing a multi-year lease since you'll be out of there in a few weeks, maybe a few months.

With Radius, you can find a flexible workspace that's close to home, with all the amenities you need for your team.

Browse spaces at www.radius.pro and book by the day, or get in touch with us about monthly rentals.
